

Dr. Dinesh Chauhan:

Insightful and passionate about homoeopathy, Dr. Dinesh Chauhan is one of the most influential figures in today's homoeopathic world. Dr. Dinesh Chauhan practices classical Homoeopathy in Mumbai, India since last 16 years. He is well received by his patients as a caring homoeopath, and a dedicated teacher to students all over the globe.

On 7th May 2014, Dr. Dinesh Chauhan was honored with the prestigious - 'Mahatma Gandhi Pravasi Samman 2014' at the Global Achievers conclave 2014. It is an award constituted by the Ministry of Overseas Indian Affairs, Government of India in conjunction with the NRI Welfare Society of India, to honor exceptional and meritorious contribution globally.

Dr. Dinesh Chauhan - as an introducer of path breaking concepts in homoeopathy and taking teaching to a different level with his uniqueness

Dr. Dinesh Chauhan's pioneer concept of patient-centric Scientifically Intuitive Case Witnessing Process - a uniquely designed 3 step case taking method, his Integrative Holistic approach in remedy reading, remedy understanding; in giving similimum centric advice to his patients in life for hobby, art, profession; the unique concept of patient centric designer diary; and the Right Brain Approach in Homoeopathy have brought a paradigm shift in the Homoeopathic World.

His biggest asset is his capacity to take participants with him step by step through the journey and encouraging them to open up and to be able to create an opportunistic environment to set up a dialog, making the field a mutually creative one. He has the ability to make theory come alive through examples from various fields of life, mythology, physics, through various sciences, jokes, quotes, stories, connecting it to homeopathic philosophy, bringing an amalgamation in a way as to establish the universality of homoeopathy.

The essence of his work reflects in the concept of an integrative inclusive holistic approach in homeopathy. This integrative inclusive holistic approach he beautiful uses not only in homeopathy, in case taking, but also in follows ups, in healing, in in life, in profession, in art. He does this using the three basic cardinal principles of homeopathy and beautifully explains how the similimum field guides you through all the aspects in one's life.

He uses this multidimensional approach not only in case taking, but in materia medica, repertory, so also in provings. This has brought many to look at these aspects in homeopathy from a different perspective rather than making it a fixed two dimensional approach.

His unique way of creating similimum field in case taking to make patient aware of their whole center, remedy in systematic way is worth watching...

New revolutionary concepts

Right Brain Approach

His recent revolutionary work has been to connect right brain artistic integrative approach with systematic logical left brain approach, making patient understanding through the right brain approaches more and more deep and centered.

Integrative holistic approach in plant kingdom

His latest developmental work of utilizing the integrative holistic understanding of a remedy, family, higher order, deriving that from proving, material medica, repertory, from nature and themes; finding a master key of each remedy has been appreciated by the students and masters of homeopathy all across the world.

Unique Designer's Healing Workshop

Bringing the similimum principle outside of the consulting room and into an individual's day to day life; Dr. Dinesh has transformed many a lives with his unique designer's healing workshop. Every year he sets out for walks and treks for a specially invited close group of homeopaths and for lay people in nature, where they spend 6-7 days. The workshop is designed in such a way as to uniquely arrive to each individual's holistic expression through walking, through spontaneous right brain activity, through interest and hobbies, through internal witnessing, and diary writing, giving each one a chance for intense retrospection and self-healing.

Feedback and reviews upon various seminars of Dr. Dinesh Chauhan:

"What a delight to be with Dinesh ... his enthusiasm, understanding of homoeopathy ... understanding of learners' needs ... Excellent balance between audio/visual and spoken material ...Lovely man! And such clarity of mind!" - Dr.

Misha Norland, UK

"I cannot but wonder at the serenity of a doctor who is inclined to follow his patients in such an unhurried yet alert way, and who is determined to bring scientific evidence to bear in his case taking. Homeopathy follows natural laws, and gradually Dinesh is unveiling them for us. He is an ardent teacher and a thorough prescriber". **Jenni Tree**

"Dinesh has provided a thorough reproducible, teachable system of case-taking, and deepened the process of case-taking to one of case witnessing. He is able to express the 'how to' of the art of the Sensation Method in a logical, sequential, apparently simple way, so that every participant of his seminars comes to feel empowered and capable of practicing at a higher level." - **Doug Brown CCH, RSHom (NA), FNP, Portland, Oregon, USA**

"Some experiences go deeper than words. Such has been my experience in studying with Dinesh Chauhan and my reluctance to write words as they will never more than approximate the depth of the experience. Dinesh teaches in a very clear, sequential way, step by step. And, step by step he asks listeners: "Are you getting it?" before moving on to the next step. But he does not just want us to follow his ideas; his measure of success is that we are able to apply what we learn to our own practices, to the healing work we are doing with others. It goes without saying that he is knowledgeable and deeply rooted in materia medica, repertory, organon, philosophy. He is also highly practiced and skilled in case witnessing, making it look as effortless as ballet. He is courageous in being willing to witness live cases before seminar participants and to continue with the follow ups. And besides all of that, he has enormous energy, a great sense of humor and play and is amazingly gentle and kind. As I said, words are inadequate; but it is a great privilege to me to know and learn from Dinesh Chauhan—not only my intellect but also my spirit is challenged to grow and develop. I am very grateful". **Kris Flaton USA**

"I knew it would be a journey but did not know how profound—and in such a transformational way. Dinesh was clear, gave us a process, allowed space to speak and question without ever making anyone feel small or stupid. He was patient, humble, kind, and very clear." -**Gwyneth Evans, New Zealand, 2009**

"Dr. Chauhan succeeded in showing us how the Sensation Method could be practiced in very easy and clear ways. Before his presentation, I had never seen this approach made so easy to understand." -**Boris Shoitov, Serbia, August 2009**

"It was good to me that you showed the cases of your early practice and showed all your mistakes in early practice. With child cases energy is very clear and enjoyable. Until now I have avoided children's cases, but now I think I am ready to understand the depth of children..."- **(From Japan, seminar 2006)**

Testimonials on Seminars

Feedback from Egypt Healing workshop 2017 participants

1. Thank you very, very, very much Dr. Dinesh for those serene 3 days. You made us all walk some paths that led us somewhere maybe to a place we never looked before, maybe this place is where healing needs to take place for everything else to fall in place.

2. Dr. Dinesh, thank u for awakening a "scattered part" of me ...

From a warm heart full of gratitude for each of you amazing souls who made this weekend an awesome and unforgettable journey full of possibilities, I send love, love, love and more love

3. Hi lovely ladies, I wanted to thank u all for your lovely presence and genuine warmth.

Especial thanks to Mona for her amazing hospitality and healthy guiltless food! Thank you Evelyn for taking care of all of us as well as all the logistics in such a professional and v friendly manner.

I think we all needed to be surrounded by each other, each coming with a piece of the puzzle and looking for the other pieces that would make the answer clear... we may have found some pieces, we may have not, yet definitely the warmth we shared healed parts in each others' hearts...

Finding answers or a perfect piece that fits and makes everything "happily ever

after " may be a myth...what is certain that our lives is in constant motion forwards where every step we take and every experience we have helps us to understand more.

Although our life unfolds forward we very often understand it backwards... we were together for a reason and hopefully we continue to support and help each other evolve and grow...

Someone wise once said," we are not broken pieces that spend our life mending, we are whole beings that spend our lives discovering."

Blessed to have met you all; with all our pieces broken and whole, with our drawings and stones and most importantly with our warm loving souls. Sending u all warm hugs love and prayers...

Nada Issa

4. You made my week Thanks Dinesh for allowing this precious gathering and thanks Mona for your delightful food and Soul and thanks all for your unique Presence

5. Thank you Evelyn for arranging this wonderful weekend and for all your efforts in bringing us together. It was such a harmonious loving group. And Dr. Dinesh thank you for sharing your wisdom and your gentle balancing yet naughty energy and for giving us this safe free space to explore and understand. As for the lovely Mona Mansour your hospitality and your food filled with love was so beautiful and nourishing on both the physical and spiritual level. And all the lovely ladies it was great discovering and exploring with you. Love you all

6. All your messages warmed up my heart girls. Thank u for expressing what we all lived together for those few days in such a touching manner and kind words. There is nothing to be added from my part but more love and gratitude for u all and for the lovely delicious cherry on our cake, Dr. Dinesh I love u all - Evelyn scerbo (Organizer Egypt healing workshop)

7. A huge thank you to all. I can't express my happiness and my gratitude to be among your beautiful energy. I can simplify it in one word that you have changed my life.

Feedback from seminar USA MARCH 2018

"Spring is here, and the energy of the bulbs and buds pushing through the earth as it defrosts is palpable. I've just returned from an intensive seminar bursting with ideas. Dinesh Chauhan started by opening up the homeopathic pharmacy of remedies related to love - beyond the well-known remedies with affinities to the heart - to those where love-sickness left "permanent scars" on the skin and the mind and more.

He showed us how to look into closely related families of plants that have been scrambled up thanks to DNA sequencing, and integrate our existing knowledge from our best old books with newer understanding of how plants within families share similar homeopathic presentations to the latest understanding of plant relationships. We refine our processes for discovering more as we look beyond our current best attempts...

I love it! No more trying to save the theory, as the first attempts at a homeopathic thematic classification sometimes did.

Including a picture to tease the homeopaths among us...marrying the old and the new. Thanks to Marina Braun and Sonam Kushner for organizing this three day marathon!

When clients speak the language of the remedy that they resonate with loud and clear, the remedy heals the whole person, from within. What happens afterwards?

The client can move towards his life purpose. The illness is a gift that, when lifted with a homeopathic remedy reveals and unlocks one's unique energy.

This weekend, Dinesh Chauhan, the sensational homeopath and teacher from Mumbai, showed how he has been moving from treating to coaching by showing some of these clients the full potential - the pattern - within the healing remedy.

When that happens, the client and the healer - are both healed and freed.

I feel incredibly blessed to have been able to do this work of moving beyond the symptoms that hold us back, to helping some clients move toward their own purpose in the past couple of years, as my practice has deepened. They go on to tell me, "Homeopathy is so amazing. I want to study homeopathy one day!"

It's gratifying because clients do not attribute the transformation to something outside themselves ("You cured me,") but, rather, have a moment of self-recognition, when they see how the healing remedy connects deeply and broadly many aspects of their lives and themselves, and enables them move forward to what they truly desire, and are uniquely able to accomplish.

So glad to be a part of the group of homeopaths who were with Dinesh this weekend to witness his transformation as a guide and teacher, and to learn from his encyclopedic grasp of homeopathic remedies and his unique way of navigating with the client. Thanks, Marina Braun and Sonam Kushner for organizing it! " **Jiuan Heng**

"Well said, jiuan. A great teacher deserves a compliment that comes from the heart. Dr. Dinesh's

teaching style is inspiring and motivating and it is something I particularly enjoy. No wonder I made a trip (at great expense) all the way from Costa Rica to come to the seminar. His approach to case taking is something I value deeply and try to emulate in my practice." **Dr. Vatsala**

"The content of the seminar was great, I have learnt so much about the plant order and we got great knowledge about remedies not so well known.

I loved his protocols how to take non verbal cases, so much help for us in practice! I appreciated Dinesh' sharing of his ideas about similimum, disease and the path of healing." **Birgit Kleinfeld**

"Thanks so much for organizing and hosting such a wonderful seminar. I thoroughly enjoyed Dinesh's teaching in such a lovely setting, and of course the excellent food and drinks you provided, enabling us to focus just on learning.

I liked the way Dinesh explored the impact of the APG Plant classification changes on Sankaran's work on plant families, and that he showed how including the plant Order in our research can be so helpful. I found his endorsement of Yakir's work on plants inspiring: her book is clearly a must-buy.

One thing I would like to hear Dinesh speak about is in fact his own evolution as a homeopath, in both his theoretical and clinical work. Something else I would like him to present is his way of working with patients who are not at the sensation level of experience. I would love to hear him focus on that issue in some of his video cases, explicitly pointing out how he brings a person from, for example, the emotional or perception/delusion level to the point of articulating their "vital sensation".

His final case presentation was particularly exciting and thought provoking for me. It was amazing that he could bring a patient to a "healing level", which had such a curative effect that it was not necessary for the patient to actually take the remedy. I would love to see him present some more of these cases, which he said occur for him now at a frequency of 1 in 10." **Paul Deasy**

Feedback from seminars in Sydney 2017

"I'm so happy that I attended The seminar. It was the most inspiring seminar I have been to and my level of understanding met on par the amazing level of enthusiasm and passion Dinesh has about Homeopathy. He's explanations and case taking was wonderful and so knowledgeable. He taught with passion and so humble. I walked away with vital steps to add to my being a better Homeopath" **Eleni Leontsini**

"Dinesh Chauhan's ideas are inspirational. He is very creative and original and clearly explains his case taking method with fun and humor. He is a lovely man, very approachable and always very careful to answer everyone's questions."

Rhonda Campbell

"a very enjoyable and energizing day, Dinesh shares his spontaneous, joyful and mischievous side,

and the warm fire of his enthusiasm is catching" **Linda Beaver**

I really enjoyed this speaker very much. Dinesh is teaching us not just case taking, but case witnessing, a slightly deeper approach. Dinesh is very spiritual, holistic and yet still has a good sense of humor. He is an entertaining speaker, yet does not loose himself in waffle but actually teaches different methods of approach when trying to look for a remedy." **Pia Lehmann**

USA

"For all students and practitioners of homeopathy, when a teacher as calm, focused, gentle, highly accomplished and sharp as Dr. Dinesh Chauhan comes along to teach, learning becomes a joyful experience. In Dr. Chauhan's seminar we can expect to understand the technique of scientifically intuitive, patient-centric case-witnessing process in which the patient has complete freedom to explore his own inner landscape. In three distinct steps of this beautiful process of unfolding, we can discover a true similimum as well as a suitable potency in the most logical and scientific manner and understand our patients in true totality." **Vatsala Sperling MS, PhD, PDHom, CCH, RSHom (NA)**

Feedback from seminars in Australia 2015

"I was happy also to see the depth from which your homeopathic wisdom has emerged from it is truly holistic and feels very right within me and inspires me to dig deeper within myself... I have always enjoyed my learning experiences with u but I received much more this time. So much gratitude to you for your contributions to the scientific healing art homeopathy." **Fiona Provan (Australia)**

"Decided to use Dr. Dinesh method with a new client after the seminar for the first time. I have used sensation but badly before I think. The beauty of passive case witnessing is that you don't have to do anything at all! It goes to the core of your own confidence to do this... Most of the work had been done and I could soon go home and make myself a Berocca. Happy days. It is really quite fascinating what happens when you just sit there with an interested look and don't ask any questions. Four questions in one hour, and virtually not a single word. Just affirmatory noises. It was fascinating...It is just a beautiful little case came out of this process. *It is so complete, so whole, just so positive*)" Participant from Australia seminar

The combination of sensation method with exact knowledge of material medica and repertorium; to adapt the method according to the individual case Respect and mindfulness in communication with the patient, openness

Meeting Point - WISH Congress 2014 - Review-

Review by Veronique Jack

Dr. Dinesh Chauhan's case of a boy who wouldn't speak was a major tour de force as we watched this tortured teenager slowly emerge through Dinesh's clever and gentle coaxing; he was able to gain the boy's trust by literally mimicking his gestures and attitude in a "scientifically intuitive case witnessing process." The boy felt so liberated that he didn't want the consultation to end! This was proof yet again that new methods and traditional wisdom applied together can create remarkable results; the patient received Stramonium, it having become clear in the course of the case taking that the recurring problem was one of becoming absolutely frozen in terror, to the point of being unable to utter a single word. Dinesh's other video case showed us how much fun can be had in the consultation when one is truly present to a child's vital energy and able to enter into close resonance with it!

Feedback from Norway Sensation seminar (November 13)-

"Nice to see live case-taking, and at the same time videos with cases at different levels and stages gives a nice insight into Dinesh's work."

"I am in bewildered awe for the way Dinesh works and conveys the material. Many pieces of the puzzle fell in place when things were said in a simple and good pedagogical way, not the least how you can use different approaches and methods adapted to each child. I will never forget colors and the octopus case:) And not the least ... what a profession!!! **I am full of inspiration for continued work and education in the world of homeopathy.**"

"Thanks for educative and inspiring days and a well carried through seminar.

Seminar notes! Luxury."

"**This has inspired me to want to work with homeopathy again.** I look forward to the continuation and would very much like it to be with Dinesh. Thank you!"

"So good to learn a specific method to interview children. We need this kind of stuff! At least those of us who are newly educated :) The video cases were really good. Clearly the best way to learn, to see something in practice. I can't pinpoint anything that should have been different..."

"Assessment of the seminar: **Specific and directly transferable to practice.** A new dimension and approach to which appealed to me."

"I was **very inspired** by Dr. Dinesh. **He conveys confidence and simplicity in case-taking.** His possesses considerable knowledge about method and material medica. I was impressed..... Thank you for an unforgettable experience!"

"The **live case was so successful** for us all, but especially for the patient. Dinesh is an inspiring lecturer. He keeps us attentive all the time, with his knowledge, wisdom, insight and humor."

"Fantastic with such good notes, we can just sit and absorb during the seminar!"

"Thank you for starting this post-graduate education, not just scattered single seminars, but a series of seminars which are connected! Thank you once again for inspiration to dive into these subjects!"

"Really good seminar! As I've never been to seminars using the sensation method and therefore have fossil knowledge, it is comforting to come into this world because the approach, the method itself and the ambitions for homeopathy harmonize very well with my own experiences and idea is to improve the quality, homogeneity and the scientific way in which we homeopaths work. It is **particularly good that Dinesh shares from his development and does not just present himself as infallible.**"

"The seminar was really good, I **would like to just go on and on.** It is nice to **return back home with increased energy and enthusiasm.** And with a hope that there will be a next time. You are doing a great job and Dinesh is so skillful, nice and fun. The live case made an impression. I participated last year too, and it was just as nice."

"First of all this was a really good seminar. Dinesh engaging, his ability to connect with patients, his knowledge - interesting and inspiring."

Feedback from Minnesota Sensation seminar (Oct 13)-

• Here I am sitting at the Minneapolis airport and reflecting back on the wonderful week I had. Dinesh leaped light years since the last time I saw him. He is just getting better and better and better. The depth with how he experiences homeopathy is amazing and his teaching was crystal clear. I think he has bypassed everyone!

-Marina Braun, CCH RShom (NA) USA

• Regarding my feedback on the course: It's difficult to express the depth of feeling that I have. My respect for you is huge. I have been to India twice and MN 3 times in order to learn from you. You understand how to make this beautiful process as simple and elegant as possible and then communicate that in language than anyone -- regardless of their level of awareness -- should understand and make usable. I have had many ah ha moments listening to you.

Each time I see you, I learn something more advanced and can't think of a thing that could be better than that. The members of the groups you teach, will get what they need as individuals, as you so eloquently eluded to on the last day. You are evolving and your approach to case taking mirrors that. It's beautiful to watch, especially compared to other homeopathic teachers whose evolvement appears to me to be more lateral than deep.

- Barbara Lowry, DSH, CCH (NJ-USA)

Feedback from Hamburg Sensation seminar (September 13)-

"It gave us many new ideas, there is a better understanding, structure, lot of motivation + enthusiasm for the sensation method."

"There is a Deeper understanding of holistic CWP due to the refined structure, along with the applicability seen in different kind of cases."

"Dinesh's profound knowledge together with his easy, but very clear way of teaching. He taught us the understanding of the holistic symptoms a pivotal point of Homoeopathy."

"There were thrilling cases and the familiar atmosphere of the seminar with space for questions was an icing on the cake."

"You are the most incredible teacher. I have learned so much, and I love the SCIENCE. Homeopathy needs this desperately! Homeopathy needs your thoughtfulness and deep consideration. I felt so lucky that you were able to come and teach our small group.

Regarding Case Witnessing Process, It was one of the most moving experiences that I have had in many years, and has given me so much food for thought It was a very powerful gift. Words cannot express the gratitude for the experience."

-Pauletter- Boston USA

"This year was very special for those of us who had the honor to meet and learn with you. It was an intimate time that allowed for learning and healing in a very deep way." -**Barbara Krupp(MN, USA)**

" The content plus pacing were perfect. The mix of lectures and live case plus video cases was just right. I especially appreciate the lectures and discussions on theory. I found the instructive for how I practice plus inspiring personally. Each live case taking analysis plus remedy selection. It was useful to see a following up from a client who was finest seen by Dr. Dinesh years ago plus see his progress.

• Dinesh is amazing preacher, extremely knowledgeable, an extremely good teacher, not ego bound, an excellent practitioner / case taker.- **Jackie Krammer**

" I really enjoyed this seminar, Dinesh s teaching is so precise and clear and his very responsive to questions and each person. I feel much more able to make the case witnessing process my own and to follow my own path as a homoeopath. Thanks so much Dinesh, and Kris and Dob, I know it was a work and I really appreciate that."- **Joanne Thomas**

Feedback from Online Advance Course in Child Centric Case Witnessing [June 2013 to August 2013]

"Thanks for putting together this course. It is bound to change my practice for the better, so that I can help many more children. ... excellent theory and amazing case. I really enjoyed your second session on fears. It gave me a lot of new approaches for exploring them with the child as a gateway to the PQRS at the holistic level. Your child centered approach is bound to enliven my case receiving and lead to greater success in children's cases. The cases have been very interesting and useful examples of the method.

It is proving to be great refresher for the method, since we have not been to India for a seminar in quite some time. Thanks for teaching in the Webinar format. " **Bob Ullman (USA)**

"it's been a beautiful journey with you, learned so many news things, CWP and applying in children cases is a beautiful gift to the field given by you, I enjoyed all the sessions, eagerly expecting and waiting for such online session in future"

Dr.Vijayalakshmi. A (Bengaluru, India)

"You are both doing a great job of making people feel welcome and cared for during the seminar. The clear focus of one session each on fears, drawing, and non-verbal gave me definite tools in each area that are very helpful. I love the questions "what fears don't you have?" and "what it is you most hope never to be afraid of?" I have toys in my office, but I was not using drawing at all with kids before this class!! And for non- verbal the idea of asking the parents specifically what the child does naturally at home -- to add to my observations in the office-- is also helpful." **Helga Fuller (Oregon, USA)**

“The entire course was superb! All the topics were well covered and the entire session was well structured. The clarity which Dr. Dinesh brings to the topic is amazing. I got to learn a lot from the course and am very thankful for the course. The last session was great! You can tell the effort you all have put in the course to make it a success! Thank you.” **Dr. Vaishali (Maharashtra, India)**

“It was a wonderful learning experience with case witnessing process. Thank you for sharing.”

Kim Brown (USA)

“These two classes were amrita for me, the nectar of the course. I am now coming out from chaos and ‘things are getting coordinated’”. **Mariana Caixeiro (Portugal)**

“ I had a great time learning from you! I loved all the sessions, they were very interesting. I really like when Dinesh tells not only case taking, but philosophy. Please don’t stop with the courses! I already wait for a new to begin!” **Zsófi (Budapest, Hungery)**

“The advanced children course is very interesting, and I have learned a lot from the sessions with Dinesh, so thank you very much!” **Martina Beilharz (Victoria, Australia)**

“Thank you for another excellent, thought provoking session today Drs. Chauhan. “
“The course is going on really wellit's very nice and valuable to learn the step by step formulation with scientific principles in children's' case taking...this is what I perceive from this course and I am learning that the every step taken in Case Taking has a firm reason/ an insight behind it, so that we can be double sure of it. I can perceive a lot of hard works of yours and beyond that the base of your passion for children and case taking.” **Dr. Sarika Nanivadekar (Bangaluru,India)**

“I appreciate very much your webinar about children cases! I have learned a lot”
Dr. Pop Magdaléna, (Budapest, Hungery)

Feedback from Online Basic Course [Jan 2013 to March 2013]

“The course was excellent! Dinesh's teaching was clear, concise, all encompassing. His explanations and analogies helped bring difficult concepts closer to the light of understanding and his jokes and stories provided light relief and the chance to gather a mental breath before plunging back into the course again. I felt I had learned a lot from his excellent book but this course passed all my expectations and has given me a much better insight into the case witnessing process. I hope, in another 20 years of serious study and practice, to be able to take a case and prescribe with a degree of competence. I have loved this course. I have REALLY found Dinesh's course to be of great interest and benefit in my practice.” **Sheryl Conran (United Kingdom)**

"I am very much thankful for your course and am very glad for joining this course. I am implementing CWP in my daily practice which helps me to connect the dots in the case."

-Sujata Gholkar (MN, USA)

"the way you teach is applicable in a practical point, gives results and helps homeopathy not to be labyrinth through which only some could find an exit. So at the end all of us (homeopaths and our patients) have good results and satisfaction in our lives." - **Sonja (Serbia)**

"Dear Dinesh, I can only say that every time your cases show that principles of case taking with your method bring unexpectable results. While I am listening it seems that the direction of the case is unknown, but at the end it gets to the core. This method can be done by any homeopath and the experience will be the same. My first steps in homeopathy always were under question mark. Is this for me? Because I thought that finding a remedy is an art for certain individuals. Thanks to your method I get my results. For now I have no suggestions, only gratitude for your help." **Sonja (Serbia)**

"It was wonderful. Dr. Dinesh Chauhan was informative and clear in the seven layers of experience of practicing homeopaths, the differentiation of the Individualistic expression at the holistic level, the clear explanation of the seven levels of experience contributed by Dr. Sankaran, and the intensity of miasmatic application. " **KIM BROWN (TEXAS)**

"I have found how to watch the two first courses. I have already watched the first one, it was very clear. Examples with remedies are very illustrating and stay in mind. Thank you for your work and sharing it." **HANCZYK FLORENCE (Paris)**

"Overall I believe your course is most excellent and all the work and love you all have put in shows up." **DEARING (USA)**

"From the very first session, I have loved that you have interacted with us and always asked for our questions, so that I feel what you have to say takes account of where we are as learners. The material you have chosen to show us, which you have talked through with us very carefully and then posted as notes for us, has been excellent and useful. I like too the interspersing of quotes from Rumi, your jokes (well, most of them only joking!), etc., which serve to enhance and expand the points you are making. The 2 cases you've shown us have been amazing." **ANNE BAKER (West midlands, UK)**

"It has been very educative and very interesting for us. I congratulate for this effort." - **DR NIRANJAN SAHOO (INDIA)**

Feedback from Romania:

This is an example of how, by getting acquainted with Dr. Dinesh Chauhan's way of working with children, a homeopath's practice have been transformed - the work got easier, the results better and understanding of children deeper.

Feedbacks from webinar with Kim ilia 10nth August 2012:

"Great webinars for last couple. Thank u so much for putting them on." **Kim Lane,MD. Wellness Lane,LLC**

"For me Dinesh takes homeopathy to the level of spirit and presence -inspiring me to be all the more in the moment in my case "witnessing". There are no co-inky-dinkies"... **Dearing**

USA

"I thoroughly enjoyed the seminar and look forward to more from Dinesh. It is so hard to impart good information in such a short time frame, especially when the technology pinches some of your time, but Dinesh covered some good themes. I have heard Dinesh speak a few themes so the basics of his approach are not new to me but I really enjoyed the concomitant of 'healer heal thyself', where Dinesh suggests we use the times when we connect or clash with our patients to teach ourselves about our own strengths and weaknesses... Dinesh suggests that we should let the meditation on our patients be our own medication. I have already had chance to put that into action and it is very interesting indeed. Thanks Dinesh and thanks for putting on these webinars.." **Joanne Greenland (Australia)**

Feedbacks from Melbourne Seminar, Australia 2012

“What an amazing opportunity attending the Dinesh Chauhan seminar in Melbourne proved to be. For three days I was completely engaged, Dinesh gave us very useful insights into the case taking process as well as answering many of the questions I had involving this method. He provided sound knowledge with a strong grounding, but managed to be very entertaining as well. It was great to meet other homoeopaths from around the country and share in a community with a common passion. I left the weekend very inspired and empowered to give my patients fulfilling treatment. I will definitely be at the next conference!”

“As we know it, homoeopathy is a way of healing that takes into consideration the whole person, paying attention to all areas/aspects of our patients. This is, to find the most similar remedy, the perfect match of remedy picture and patient picture. At last week’s seminar, Dinesh demonstrated to us this homoeopathic principle applied in the actual case-taking process in the most profound way. In his special, human centered way of taking the case, that is, in tune with the patient's pace, Dinesh finds access to the patient's very center. Here he facilitates the pattern of the disturbed vital force to become more and more clear, palpable, and obvious; prescribing becomes easier and more correct.

Getting in contact with Dinesh's case-taking skills was very special to me, and of great value in finding ways to apply the healing potential that homoeopathy offers to the world in a more successful way.” Martina Beilharz (2012, Melbourne, Australia)”
