Our speaker, Dr.Dinesh Chauhan, is founder of Swasthya International Clinic in Mumbai, India and one of the most influential figures in today's homeopathic world. He will take us in a whole day lecture through theory and practice and with video cases and learn us, how we use his "case Witnessing" method in daily practice with patients - and ourselves. His integrative holistic approach enables us to recognize and use the new aspects, especially the "Right Brain Approach".
